

Cinnamint Toothpaste

You will LOVE Cinnamint Toothpaste

- It contains Monolaurin for anti bacterial activity
- Contains 4 different clays to polish and whiten teeth
- Peppermint makes it taste great
- Xylitol strengthens your tooth Enamel

Cinnamint Toothpaste with Xylitol, French Green Clay and Essential Oils.

The various ingredients work to whiten teeth. The monolaurin has activity against bacterial infections such as gingivitis, viral or fungal infections in the mouth. The clays remove tartar and whiten and polish teeth. The other ingredients are antiviral and anti bacterial. Together they all tend to resolve gingivitis and promote a healthy mouth. The various oils, such as cinnamin, peppermint any myrrh, leave one with a clean fresh breath.

It increases the activity of neurophylls and helps control oral infections of candida.
