

# InflammEase

Endobiogenic Concept™ Formula #5

## Reasons to use InflammEase:

- It contains three herbs that reduce inflammation by both similar and different actions.
- They are synergistic when used together.

InflammEase is used to reduce pain and edema in acute musculoskeletal injuries. It helps control the inflammation and pain of arthritis. It is also useful for inflammatory conditions such as neuralgia and laryngitis.

## What the herbs Do:

American herbalists have used **Burdock** (*Arctium lappa*) for the treatment of arthritis for over 200 years because of its anti-inflammatory action. It also has a hypoglycemic action that has been used to control blood sugar. Its composition is 75% fructo oligo saccharides soluble fiber of which 45% inulin. It reduces liver damage from toxic chemicals.

**BioVin®** supplies OPCs from grape seeds, plus anthocyanins and other flavonoids found in grape skins known as "red wine polyphenols." It also contains resveratrol. Proanthocyanidins have been shown to strengthen capillaries; they help prevent platelet aggregation, thereby preventing blood clots and other heart disease complications. Some other functions of proanthocyanidins include enhancing Vitamin C activity, improving varicose veins, preventing bruising, attacking free radicals, and strengthening weak blood vessels. The OPC mode of free radical action is a vitamin C-like effect in the regeneration of vitamin E when the radical anions oxidize vitamin E. It enhances capillary elasticity and prevents excessive clumping of platelets.

**Pineapple Extract** has a long history of effective use for traumatic and post-surgical swelling and inflammation. It also helps to control the pain and swelling of arthritis. It stimulates fibrinolysis and has excellent anti-inflammatory properties.

**Warning:** InflammEase should not be used by pregnant or lactating women or those who might become pregnant.

### Supplement Facts: Serving Size: 1 Capsule, Servings per Container: 100

Each capsule contains 406 mg Proprietary Blend:

Vitis vinifera (BioVin® full spectrum grape) extract, Pineapple (*Ananas comosus*) fruit extract, Burdock (*Arctium lappa*) root extract

Other Ingredients: microcrystalline cellulose, magnesium stearate, gelatin (capsule)

Suggested use: 2 capsules 3 times per day or as directed by a health professional.

Highest quality HPLC analyzed herbal extracts.

How InflammEase is Supplied:

VMEC5

Bottles of 100 Capsules
