

# Renewal Mega CoQ10

Renewal formulations contain superior antioxidant immune enhancing ingredients to feed cells and tissues, help defeat the signs of aging and keep skin looking its youthful best

CoQ10 production is Inhibited by Statins, beta blocking drugs and red Yeast rice. CoQ10 Plus restores these levels.

## *What Makes this Product Unique:*

CoQ Plus is a combination of Coenzyme Q10 L-Carnitine, and three herbs that act synergistically.

## *Uses for Coenzyme Q10:*

The primary uses for CoQ10 have been for congestive heart failure, to control elevated blood pressure and cardiomyopathy, and other cardiovascular conditions.

Curcumin, Milk Thistle, L-Carnitine, and Bilberry have also been use in these conditions. They are synergistic with each other and with CoQ10. This formula has been perfected over years of clinical work. Mega CoQ10 has been found to be twice as effective as a similar dose of CoQ10 by itself.

## *What Renewal Mega CoQ10 Does:*

Coenzyme Q10 (CoQ10) is present in the young adult and begins to decline with age. It is required for mitochondrial ATP synthesis and functions as an antioxidant in cell membranes and lipoproteins.
